

WE ARE

China Legislation & Standards Platform

-CNSTANDARDS

CNSTANARDS founded in Beijing, China in 2010 as an independent consulting institution, to supply technical supports of China's policies, regulations, standards, certification & conformity to **enter the Chinese market** with products and services.

CNSTANDARDS supplies and supports vertically all mandate requests and compulsory intelligence on industry, technology, service and product access to China

CNSTANARDS assembles Chinese experts with long-term experience in service or pension Who can supply and support training course, consultancy and instruction on behalf of competent departments with authorized messages.

CNSTANARDS establishes intimate full-scale relationship with China authorities: central ministries & administrations, local governments and bureaus to pursue first-hand information and explanations.

Paolo Yue, General manager of CNSTANDARDS, has 15 years professional experiences of international cooperation, Mr. Yue acknowledges intimately access to China with excellent communication and cooperation skills.

Our pragmatic approach, extensive knowledge, and thorough quality control make *Quality Partnerships* the ideal choice for accessing the Chinese market.

Law
